

CONFERENCE PROGRAM

21ST ANNUAL

APRIL 3-5, 2025

DRAFT

WINNIPEG

VASCULAR & ENDOVASCULAR
SYMPOSIUM

RESIDENTS' DAY

THURSDAY, APRIL 3

GENERAL PROGRAM

FRIDAY, APRIL 4 & SATURDAY, APRIL 5

FAIRMONT WINNIPEG

CONFERENCE GOALS

The primary goal of this multidisciplinary conference is to provide current state-of-the-art information through an engaging platform and immersive learning experience for attendees. Thought leaders in vascular surgery will share advances in medical education, clinical reasoning, research and real-world experiences that can be used to improve vascular surgery in Canada.

MAXIMIZE LEARNING

Relevant sessions and topics that are authentic and original including speaker presentations, debates, keynote lectures and case studies.

Residents' Day is a highlight each year with residents from all vascular surgery training programs across Canada presenting on various vascular topics chosen by the planning committee.

DYNAMIC NETWORKING

Being in a group of like-minded people encourages creativity and inspiration. Bringing together professionals from different disciplines and areas of the country provides an opportunity to connect and share ideas with other individuals focused on growing and improving vascular surgery.

ACCREDITATION

NOTE: Accreditation has not yet been confirmed.

RCPSC

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.

This activity has been approved by the Canadian Society of Vascular Surgery for a maximum of (TBA) hours.

CAMRT

Category "A" credits have been approved by The Canadian Association of Medical Radiation Technologists as follows:

Day 1: (TBA) Category A Credits
Day 2: (TBA) Category A Credits
Day 3: (TBA) Category A Credits

Attendees may only claim credits for sessions they have attended in FULL.

MOBILE APP

Access up-to-date information regarding the 2025 Winnipeg Vascular Symposium including the full schedule, presenter and moderator details, be included in Live Polls and Question & Answer periods during sessions, and find out more about our sponsors on the 2025WVES app through EventMobi.

Website – www.eventmobi.com/2025wves

RAPID-FIRE SESSIONS

Please refer to the EventMobi app or speak to the registration booth staff for information regarding the unaccredited Rapid-Fire Sessions.

SPONSORS & EXHIBITORS

Without the support of our sponsors and exhibitors, this important educational event would not be possible.

Be sure to visit the exhibit booths to see the latest products and services from our sponsors.

HOURS

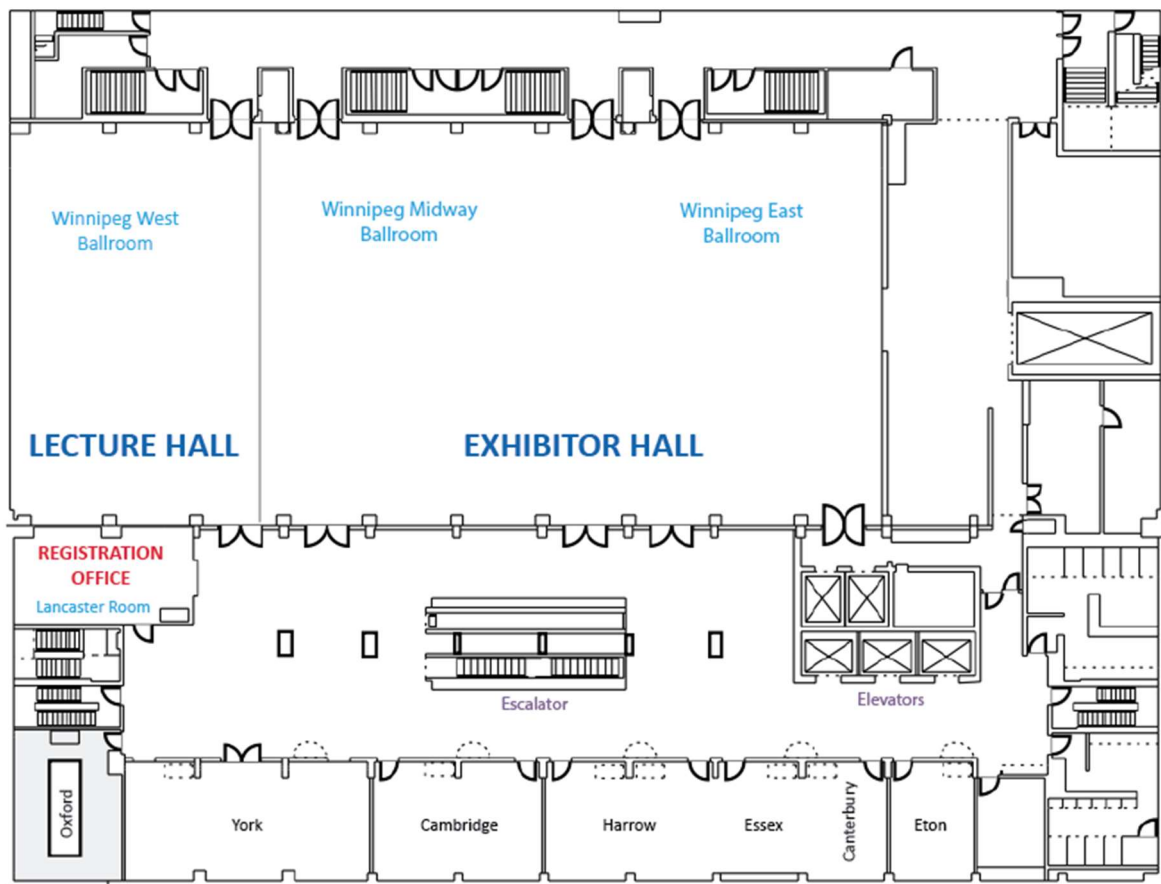

Friday, April 4	700-1630
Saturday, April 5	700-1400

PASSPORT TO PRIZES ACTIVITY

The Passport to Prizes activity is a fun and interactive way for attendees to connect with sponsor companies. When visiting each of the exhibit booths attendees will be provided with a passcode to be entered into the Passport to Prizes section on the event app.

For all attendees who have visited each of the booths and entered the passcodes into the app, their name will be placed into a draw for a chance to win a prize!

FAIRMONT FLOOR PLAN

RESIDENTS' DAY – THURSDAY

645 – 730	REGISTRATION & CONTINENTAL BREAKFAST
730 – 735	Opening and Welcome <i>April Boyd, Vascular Surgeon – Winnipeg, MB</i>
SESSION I	AORTA
LEARNING OBJECTIVES	<p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Evaluate and determine the best treatment and management options for endoleaks, blunt aortic injuries and iliac aneurysms Describe techniques and management options for abdominal aortic aneurysms
MODERATOR	<i>April Boyd, Vascular Surgeon – Winnipeg, MB</i>
735 – 750	Management of Endoleaks <i>Alison Michels, PGY4 Resident – McMaster University</i>
750 – 805	Techniques to Improve EVAR for AAA Rupture <i>Angela Kim, PGY4 Resident – McGill University</i>
805 – 820	Management of Blunt Aortic Injury TBA
820 – 835	Branched Endografts in the Treatment of Iliac Aneurysms TBA
835 – 855	Panel Discussion
855 – 915	<p>DEBATE: Women's AAA Should Be Repaired Starting at 4.5 cm</p> <p>For the Motion <i>Halli Krzyzaniak, PGY3 Resident – University of Calgary</i></p> <p>Against the Motion <i>Ievgen Gegiia, PGY3 Resident – Laval University</i></p> <p>Discussion</p>
915 – 930	Case Presentation <i>Sneha Raju, PGY3 Resident – University of Toronto</i>
930 – 950	REFRESHMENT BREAK
SESSION II	PERIPHERAL VASCULAR DISEASE
LEARNING OBJECTIVES	<p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Evaluate and describe popliteal entrapment and occupational hand syndromes Describe management techniques for diabetic foot conditions Discuss treatment options for chronic mesenteric ischemia
MODERATOR	<i>Pascal Rheume, Program Director – Laval University</i>
950 – 1005	Popliteal Entrapment Syndrome <i>Marie Lyne Bourque, PGY3 Resident – University of Montreal</i>
1005 – 1020	Occupational Hand Syndrome <i>Rhiannon Tracey, PGY4 Resident – Western University</i>
1020 – 1035	Modern Management of the Diabetic Foot TBA
1035 – 1050	Panel Discussion
1050 - 1110	<p>DEBATE: Chronic Mesenteric Ischemia is Best Treated Endovascularly</p> <p>For the Motion <i>Farhad Udwardia, PGY3 Resident – University of British Columbia</i></p>

	<p><i>Against the Motion</i> <i>Xheni Konci, PGY 3 Resident – McGill University</i> Discussion</p>
1110 – 1125	<p>Case Presentation <i>Naomi Wedel, PGY2 Resident – University of Calgary</i></p>
1125 – 1215	LUNCH
SESSION III	RESIDENTS' JEOPARDY
LEARNING OBJECTIVES	<p><i>At the end of this session, participants will be able to:</i></p> <ul style="list-style-type: none"> Evaluate their level of knowledge on various vascular diseases, conditions and processes
MODERATOR	<i>Prasad Jetty, Program Director – University of Ottawa</i>
1215 – 1315	
SESSION IV	CAROTID
LEARNING OBJECTIVES	<p><i>At the end of this session, participants will be able to:</i></p> <ul style="list-style-type: none"> Assess and create treatment options for carotid fibromuscular dysplasia and carotid body tumors Evaluate and determine management options for carotid dissection Discuss the future of stenting in carotid endarterectomies
MODERATOR	<i>Elie Girsowicz, Program Director – McGill University</i>
1315 – 1330	<p>Carotid Fibromuscular Dysplasia – Diagnosis, Screening & Treatment <i>Samie Cloutier, PGY2 Resident – University of Montreal</i></p>
1330 – 1345	<p>Management of Carotid Dissection <i>Elizabeth Richard, PGY4 Resident – Laval University</i></p>
1345 – 1400	<p>Carotid Body Tumors TBA</p>
1400 – 1415	Panel Discussion
1415 – 1435	<p>DEBATE: Stenting Will Eventually Replace CEA <i>For the Motion</i> TBA <i>Against the Motion</i> <i>David Guzzardi, PGY3 Resident – McMaster University</i> Discussion</p>
1435 – 1450	<p>Case Presentation TBA</p>
1450 – 1505	<p>Case Presentation TBA</p>
1505 – 1515	REFRESHMENT BREAK IN MEETING ROOM
	*** FOR VASCULAR RESIDENTS, FELLOWS & PROGRAM DIRECTORS ONLY ***
LEARNING OBJECTIVES	<p><i>At the end of this session, participants will be able to:</i></p> <ul style="list-style-type: none"> Plan and prepare for future oral exams
1515 – 1715	Mock Oral Exam Preparation Session + Top Gun Skills Competition
1720 – 1820	Residentluminaries Session
1830	<p>Residentluminaries Dinner <i>Cook Medical</i></p>

GENERAL PROGRAM - FRIDAY

700 – 745	REGISTRATION & CONTINENTAL BREAKFAST
745 – 750	Opening and Welcome <i>Gregory Harding, Vascular Surgeon – Winnipeg, MB</i>
750 – 800	Presentation of the George Louridas Education Awards for Best Presentations on Residents' Day <i>Randy Guzman, Vascular Surgeon – Winnipeg, MB and Gregory Harding, Vascular Surgeon – Winnipeg, MB</i>
SESSION I	LOWER EXTREMITY
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Evaluate and determine the best treatment options for peripheral vascular disease and other lower extremity conditions Discuss treatment options for common femoral stenoses
MODERATOR	<i>Gregory Harding, Vascular Surgeon – Winnipeg, MB</i>
800 – 815	The Use of Remote Endarterectomy to Treat People with Peripheral Vascular Disease – Case History and Background Research <i>John Landau, Vascular Surgeon – London, ON</i>
815 – 830	Surveillance of Lower Extremity Stents – Evidence, Modalities and Timing <i>TBA</i>
830 – 845	Influence of Ethnicity, Socioeconomic Status and Geography on Lower Extremity Amputation in Canada <i>TBA</i>
845 – 900	Panel Discussion
900 – 930	DEBATE: Endovascular Atherectomy Should Be the First Choice in Treating Common Femoral Stenoses For the Motion <i>Leonard Tse, Vascular Surgeon – Toronto, ON</i> Against the Motion <i>TBA</i> <i>Discussion</i>
930 – 945	Case Presentation <i>TBA</i>
950 – 1005	Sponsored Rapid-Fire Session
1005 – 1030	REFRESHMENT BREAK
SESSION II	CAROTID
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Summarize the best treatment and management options for various carotid conditions including acute strokes and asymptomatic critical carotid stenosis with contralateral occlusion Understand techniques and evaluate their efficacy for internal carotid and proximal common carotid artery stenosis
MODERATOR	<i>Kenton Rommens, Vascular Surgeon – Calgary, AB</i>
1030 – 1045	Asymptomatic Critical Carotid Stenosis with Contralateral Occlusion – Risk, Decision-Making and Optimal Management <i>Jonathan Misskey, Vascular Surgeon – Vancouver, BC</i>
1045 – 1100	When Should Intracranial Vascular Disease Preclude Carotid Endarterectomy? <i>TBA</i>
1100 – 1115	Endovascular Treatment for Acute Stroke

	<i>Jai Shankar, Interventional Radiologist – Winnipeg, MB</i>
1115 – 1130	How I Do It: Tandem Internal Carotid and Proximal Common Carotid Artery Stenosis <i>TBA</i>
1130 – 1145	Panel Discussion
1145 – 1200	Case Presentation <i>Greg Browne, Vascular Surgeon – St. John's, NFLD</i>
1200 – 1230	Top Gun Competition Semi-Finals
1230 – 1315	LUNCH
SESSION III	VENOUS
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Evaluate and determine the best treatment options for various venous conditions including venous aneurysms, saphenous veins and post thrombotic syndrome Discuss and consider benefits of public vs private healthcare for endovenous vein ablation
MODERATOR	<i>Fadi Elias, Vascular Surgeon – Hamilton, ON</i>
1315 – 1330	Role of Early Ablation of the Saphenous Vein to Heal Venous Ulceration <i>TBA</i>
1330 – 1345	Venous Aneurysms – Indications and Options for Repair <i>Gerrit Winkelaar, Vascular Surgeon – Edmonton, AB</i>
1345 – 1400	How I Do It: Recanalization of Venous Occlusions for Post Thrombotic Syndrome <i>TBA</i>
1400 – 1415	Panel Discussion
1415 - 1445	DEBATE: Endovenous Vein Ablation Coverage by Public vs Private Health Care Public Health Care <i>TBA</i> Private Health Care <i>Jerry Chen, Vascular Surgeon – Vancouver, BC</i> Discussion
1450 – 1505	Sponsored Rapid-Fire Session
1505 – 1530	REFRESHMENT BREAK
SESSION IV	SELECTED TOPICS IN VASCULAR SURGERY
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Understand techniques and evaluate their efficacy for retrograde open mesenteric stenting Analyze and determine best treatment options for renal artery aneurysms and hypertension
MODERATOR	<i>Stephane Elkouri, Vascular Surgeon – Montreal, QC</i>
1530 – 1545	How I Do It: Retrograde Open Mesenteric Stenting (ROMS) <i>Pascal Rheume, Vascular Surgeon – Quebec City, QC</i>
1545 – 1600	Management of Renal Artery Aneurysms <i>Paul Petrasek, Vascular Surgeon – Calgary, AB</i>
1600 – 1615	Is There a Role for Renal Denervation in Canada for the Treatment of Hypertension? <i>TBA</i>
1615 – 1630	Panel Discussion
1630 – 1800	Top Gun Competition Finals with Cocktail Hour

GENERAL PROGRAM - SATURDAY

715 – 800	REGISTRATION & CONTINENTAL BREAKFAST
800	Opening and Welcome <i>Joshua Koulack, Vascular Surgeon – Winnipeg, MB</i>
SESSION V	ABDOMINAL AORTA
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Assess if there is a benefit of pre-operative embolization to reduce spinal cord ischemia Discuss abdominal aortic aneurysms and conditions to determine the best treatment options
MODERATOR	<i>Elisa Greco, Vascular Surgeon – Toronto, ON</i>
800 – 815	How I Do It: Aorta EVAR Explant <i>TBA</i>
815 – 830	Indications for Bilateral Iliac Bifurcated Endograft: Tips & Tricks <i>Samuel Jessula, Vascular Surgeon – Halifax, NS</i>
830 – 845	The Changing Epidemiology of Vascular Emergencies – Where Have All the Ruptures Gone? <i>Fadi Elias, Vascular Surgeon – Hamilton, ON</i>
845 – 900	Is Screening for Abdominal Aortic Aneurysms Still Warranted in 2025? <i>Varun Kapila, Vascular Surgeon – Toronto, ON</i>
900 – 915	Panel Discussion
915 – 945	DEBATE: Endoanchors Should Be Used Routinely in EVAR For the Motion <i>Rikesh Parekh, Vascular Surgeon – Edmonton, AB</i> Against the Motion <i>TBA</i> Discussion
950 – 1005	Sponsored Rapid-Fire Session
1005 – 1030	REFRESHMENT BREAK
SESSION VI	THORACIC AORTA
LEARNING OBJECTIVES	At the end of this session, participants will be able to: <ul style="list-style-type: none"> Explain endovascular treatment options for thoracic aorta aneurysms and dissections Understand the aortic team model and the role it plays in cardiovascular surgery
MODERATOR	<i>Jonathan Misskey, Vascular Surgeon – Vancouver, BC</i>
1030 – 1045	Where Are We with Endovascular Management of Arch Aneurysms? <i>Kenton Rommens, Vascular Surgeon – Calgary, AB</i>
1045 – 1100	Challenges in Endovascular Management of Post Dissection Aortic Aneurysms <i>Kongteng Tan, Interventional Radiologist – Toronto, ON</i>
1100 – 1115	Management of Complex Aortic Dissection <i>TBA</i>
1115 – 1130	Panel Discussion
1130 – 1145	Case Presentation <i>Thomas Lindsay, Vascular Surgeon – Toronto, ON</i>
1150 – 1205	Sponsored Rapid-Fire Session
1205 – 1300	LUNCH

SESSION VII	KEYNOTE LECTURES
LEARNING OBJECTIVES	<p><i>At the end of this session, participants will be able to:</i></p> <ul style="list-style-type: none"> • Modify and update treatment and surgical techniques based on new information provided • Examine procedures in practice to ensure diversity, equity and inclusivity • Understand how vascular diseases affect the Canadian indigenous populations
MODERATOR	<i>Jason Bayne, Vascular Surgeon – Montreal, QC</i>
1300 – 1320	<p>Top Ten Papers of 2024</p> <p><i>Thomas Forbes, Vascular Surgeon – Toronto, ON</i></p>
1320 – 1340	<p>Does Competency By Design Produce Better Vascular Surgeons?</p> <p><i>Elisa Greco, Vascular Surgeon – Toronto, ON</i></p>
1340 – 1400	<p>Use of Artificial Intelligence in (Vascular) Surgery</p> <p><i>TBA</i></p>
1400 – 1415	Panel Discussion
1415 – 1430	REFRESHMENT BREAK & PRIZE DRAWS
SESSION VIII	CASE PRESENTATIONS
LEARNING OBJECTIVES	<p><i>At the end of this session, participants will be able to:</i></p> <ul style="list-style-type: none"> • Identify and implement treatment options in their practice
MODERATOR	<i>Kirk Lawlor, Vascular Surgeon – Vancouver, BC</i>
1430 – 1445	<p>Moderate Complexity Cases – ‘Hey, I CAN do that!’</p> <p><i>TBA</i></p>
1445 – 1500	<p>Interactive Case Presentation</p> <p><i>TBA</i></p>
1500 – 1515	<p>Interactive Case Presentation</p> <p><i>TBA</i></p>
1515 – 1530	<p>What Would You Do? Case Presentation</p> <p><i>Paul Petrasek, Vascular Surgeon – Calgary, AB</i></p>
